From the Principal's Desk

All Saints' College is one of the premier institutions of higher education in Kerala that offers quality education to women. The college was founded in 1964 by Rev. Mother Mary Louise, CCR with the approbation of Rt. Rev. Dr. V.V. Dereere, OCD, Bishop of Trivandrum. The All Saints' family is committed towards the upliftment of the coastal community and general social welfare. We strive to create a positive culture and leadership quality in students. We are actively seeking to better ourselves through intensive training for all branches of institutional organization. This is to maximize output through honing efficiency.

We are seeking collaborations with other institutions and carrying out introspections so as to ensure that we present the best versions of ourselves to our students. These activities help our students to become motivated, tend to be more goal-focused, improve their academic performance, graduate on time and get involved in career-planning activities. Overall these students have a more satisfying and fulfilling college experience. There is a greater thrust on research and our research centres have bright young minds working in our lab. Our students are bringing academic and social recognition through their distinguished performances.

Newsletter is the grey literature containing all activities of our departments. This helps us to review our goals and promote ourselves for the future. This issue of the newsletter presents the highlights of the events happening during June 2020 to October 2020. I congratulate Dr. Beena Kumari K. S. and Ms. Sebina Mathew C. for their unsparing efforts in bringing out this issue of the Newsletter. May this Newsletter 'All Saints' Times' give us encouragement to locate new goals and bright our future.

Editorial

We live today in a world so very different from the one we grew up in, the one we educated in and the one we envisioned for our future. The unforeseen challenges, especially the pandemic caused the educators to pause and reflect on the changes that needed to be incorporated to ensure a learner centric atmosphere while preparing them to cope / face life's challenges. We endeavor to instil values and principles in all who enter the porch of this glorious institution that will help them to grow and develop into academically proficient, sensitive and responsible young women of the future. We fortunately have committed and supportive management, dedicated teachers, caring and cooperative parents, which blend harmoniously to create a student- centric institution.

This issue highlights the events, achievements and advancements of the institution during the past year. Also it acknowledges the valuable contribution rendered by different departments, clubs and associations.
