## Report of the Upcycling Workshop

An upcycling workshop was conducted by the Planeteer's Club which functions under the Research Center and Post Graduate Department of Environmental Sciences on 27<sup>th</sup> January, 2023. The purpose of this workshop was to make the students aware of the need to use any product to its maximum. Even after its intended purpose is over, there could be many areas where it could find use.

In the workshop, the students were given ideas on doing upcycling. They were also given some used bottles of various kinds and were asked to do some kind of artwork on it. The students actively participated in the workshop and could do the activity wonderfully well.
