Faculty Members

Report of the Online Workshop on "Introduction to Intellectual Property"

In today's globally competitive environment, Intellectual property has placed itself on a pedestal in the context of economic growth and is becoming increasingly important. Intellectual Property (IP) is the fuel that powers the engine of prosperity, fostering invention and innovation. The increasing significance of intangible assets in the global economy is forcing business organizations to actively manage their IP as a key driver for building and sustaining their competitive advantage and achieving superior performance. On the above backdrop, the Department of History and Political Science and the IQAC team of All Saints' College in association with the office of the Controller General of Patents Designs and Trademarks Government of India, organised an online workshop on the topic "An Introduction to Intellectual Property". The focus of the webinar was to promote the creation, protection & enforcement of the Intellectual Property Rights. This online workshop was conducted on 30th March 2023. The resource person was Dr. Babita Pais Tharappan, IP consultant, Registered patent, designs and trademarks agent and IP facilitator for start-ups. The workshop was coordinated by Dr. Parvathy Menon, faculty, Department of History and Political Science. There was participation from both the students and faculty of All Saints' College. The workshop was very productive, with the resource person giving a very deep insight into Intellectual Property Rights. She spoke on the basic concepts of Intellectual Property Rights and stated that networking is very much necessary in order to facilitate the process of promoting Intellectual Property. "Intellectual property" are type of property that results from creation of the human mind, the intellect. Intellectual property management starts with the germ of an idea. IP by itself neither helps nor hinders development necessarily. It is how laws, policies and practices are designed and used in different countries that determine whether IP is effective for development purposes. She highlighted the importance to promote intellectual property licensing practices, particularly, with a view to foster creativity, innovation and the transfer and dissemination of technology to developing countries and least
