Report of the Research Committee 2024-25

The Research Committee evaluates the research activities of the college and meets regularly to assess the research output of the institution. All departments have been asked to augment the research output of the members of faculty and students by increasing the number of research publications and presentations. Departments have been asked to organise seminars and conferences and several departments have come up with plans to conduct the same. Research Departments have to hold annual Work in Progress Seminars to assess the research output of doctoral scholars. These seminars will provide a creative and critical milieu for research scholars to evaluate their work. The invaluable feedback that the supervising teachers will provide will greatly enhance the quality of the research work. The Department of English conducted its Work in Progress Seminar on 27 March 2025. All research scholars of the Centre had to give a detailed report of their work and all full-time scholars had to make mandatory presentations before the Committee of Research Guides. The research committee has also made plans for several research initiatives which will be put into action in the next academic year.
