

**REPORT OF ACTIVITIES AS PART OF MoU WITH CLIMATEHOOD
FOUNDATION AND ALL SAINTS' COLLEGE**

- VARIOUS ACADEMIC ACTIVITIES

The major activities planned as part of this collaboration was offering Climate education and environmental awareness through Seminars, Workshops and Skill based training sessions. Awareness sessions on current environmental issues and other academic activities were also part of the collaboration. This was implemented with support from the collaborating team of experts (both National and International), of both parties and with expert involvement and support from other external agencies/resources. (Refer MoU signed on 1st January of 2021)

The main objectives of the MoU was to develop academic and educational collaboration, establish a collaborative program between the college and Climatehood, and to corporate in their mutual interest for a range of higher educational activities, work towards conducting joint research and development of individual projects for student internships in future and to search for opportunities to involve in joint academic projects with support from other external agencies, both national and international.

A talk series was planned as part of the programme which is named as **Conservancy Talk Series**, was kick started on January 2021. All the students of the Department of Environmental Sciences (All Saints' College), interested students from other departments of the college and other colleges of the state are participants and beneficiaries of the programme.
