From the Principal's Desk

All Saints' College is a vibrant community that enjoys the reputation of being one of the leading educational institutions for women in the city. The college, which has a long tradition of educating Latin Catholic students from the coastal area, was established in the year 1964. Ours is a holistic approach that attempts to educate the hearts and minds of our students while striving for academic excellence. The college employs best practices in teaching methodology, has a rich co-curricular programme and a wide range of sports, club activities, literary and cultural competitions.

We endeavor to provide a platform for our students to excel in their area of interest, to bring out their inherent talents and help them discover their hidden potential. Ethics and Life Skills classes also form an important part of the curriculum. At All Saints', we believe education should not only train but ennoble minds. Our students are to be bearers of light, using their knowledge and skills to serve others and transform society.

Chronicles are valuable markers. They record our achievements and permit us to review our goals and objectives for the future. This issue of newsletter presents the highlights of the past few months. The activities differ but the common factor uniting all of them is the enthusiasm to engage oneself creatively in productive endeavors.

I congratulate Dr. Nisha K K and Dr. Ayona Jayadev for their unstinting efforts in bringing out this issue of the newsletter. May the banner of All Saints' Times continue to inspire us to set new goals and achieve them.

Editorial

Expedient communication plays a vital role in institution's development. Each year All Saints' Times endeavours to reflect and encompass the diversity inherent to the academic and co-curricular pursuits reserved by All Saints' College for the same academic year. With the onset of the academic year 2017-2018, the campus once again got filled with smart, inspired students who were ready to take advantage of the breadth of offerings held out by the college in different domains.

The essential purpose of this issue for the most part is, both to inform, engage, inspire the students, parents and staff and to reinforce increased awareness, improved interaction and integration among all of us about the great achievements scaled by the college presently.

The progress of any society largely depends on the invaluable contributions rendered by people behind the scenes. This news letter earnestly attempts to provide proper acknowledgement and respect all of those efforts undertaken by various departments, associations, clubs and the students union in upholding the stature and honour of the college.

Wish you all a Pleasant Reading !!!
